Holland Man Has 'Cool' Birthday

Being on board the SS Manhattan as she makes her maiden voyage to commercially open the icy waters of the Northwest Passage is indeed an amazingly fantastic experience. But to celebrate a birthday anniversary "way up North" must add to the memory.

Such is the case for Richard L. Vukin former Holland resident who is 27 years old today and on board the Manhattan.

Dick, son of Mr. and Mrs. Nick Vukin of 1190 Beach Dr., Central Park, is one of the 125 persons aboard the world's first tanker - icebreaker on the his-

Richard L. Vukin

mission. Vukin is one of four engineer coordinators serving directly under project manager Stanley B. Hass.

Vukin, as study coordinator, assists the company in making full - scale tests to determine whether it is practical to transport the oil by tanker through the Northwest Passage to the East Coast.

A Holland High School graduate, Dick joined Humble Oil Company upon graduation from the University of Michigan in 1965 from the School of Engineering with a degree in Naval Architecture.

His present and third assignment as a member of the Arctic Marine Task Force began in December, 1968. Previously, he was employed in marine department and later by Esso Research.

While Dick is at work on the Manhattan, his wife, Geraldine, is at home in Houston, Texas, caring for their two sons, Gregory and Nick.

Dick writes the work is "very busy and will remain that way." But as the work is busy, the view is awesome. He relates:

"The amazing thing has been the ice. Some big chunks are as bright blue. They are the pieces of multi - year polar ice that are very hard. Also the size and shape of all the pieces that are floating around. Some come from glaciers and some from polar ice cap that has filtered down through the Canadian Islands.

"Another one (amazing thing) is the absence of complete darkness. At midnight, it is like 6 p.m. in December in Michigan (not quite as cold though.)"

He described: "Coldest temperature has been about 32 degrees but that is pretty biting when the ship is moving at 15 knots and the wind is blowing towards you at 25 for a total of 40 knots."

In a later card, Dick said "It's like Christmas outside. 20 degrees, snowing etc. It's been real beautiful scenery: ice, ice, ice. . ."

making venture called a \$39 million gamble of Humble Oil Company.

The "gamble" involves studying the feasibility of moving oil from Alaska's North Slope by tanker.

Humble Oil spokesmen point out the expensive scientific expedition started out as a routine consideration of alternatives that grew to the plan blending Arctic knowledge of several international oil companies, two governments, ship consultants, economists, polar-builders, ice scientists and specially trained seamen. Some 4,800 persons are involved in work related to the Manhattan

Seek Better Identity For Old US-31

SAUGATUCK — State Sen. Gary Byker (R-23rd district) met with a group of Saugatuck resort operators, Chamber of Commerce representatives, and representatives of the Department of State Highways and the Allegan County Road Commission Wednesday to discuss possibilities of providing better identity for the Blue Star Highway (former US-31) between Holland and Saugatuck.

Chief complaint was brought Mrs. Howard Temple, a motel operator on that part of the old highway that bypasses Saugatuck, who said motel trade has been drastically reduced ever since the I-96 freeway was put into operation seven years ago. She is asking better designation of Blue Star Highway on highway signs and on state maps.

Following lunch at the Tara, the group toured old and new highways, making several stops to study signs and discuss possible improvements.

It also was made known that counties in Michigan are studying a numbering system which may aid the traveler in finding locations off the freeways. A key stone shaped sign is under consideration for such routes.

John Knecht, assistant to the director of the Department of State Highways, said changes in route designations and county numbering systems must be carefully studied and must be completed state-wide before a new system can be adopted.

"We must have it 'right' or 'as nearly right as possible' before changes are made on official maps," he said.

Other officials favored a shorter name than Blue Star Highway since such a name requires too much space on a state map for minor routes.

About 15 were present at the four-hour gathering.

Fire Damages Evink Home

Fire of unretained origin caused an unestimated amount of damage to the Wayne Evink home at 2247 Second Ave. Wednesday afternoon.

Firemen from Park Township No. 2 station received the call at 12:29 p.m. and were at the scene for two and one-half hours along with Ottawa county sheriff's deputies.

A neighbor, Mrs. Arthur Kruitthof of 2270 Second Ave., noticed smoke coming from the Evink home as she left her front door. She saw the fire through a bedroom window and called the fire department.

Evink told deputies he had left shortly before noon to take some of the children to meet the school bus.

Firemen said the blaze apparently started in the bedroom on the northwest side of the single story wood house, gutting the bedroom and the kitchen with it. Extensive damage was reported to another bedroom and the living room area as well as some water damage.

Firemen were able to keep the fire from breaking through the outside of the house except for a few small places.

ALLEGAN — After deliberating 25 minutes, a Circuit Court jury Wednesday found Mrs. Doris Noordhof, 39, route 2, Hamilton, guilty of negligent homicide in the crash deaths of a Holland man and two sons Sept. 1, 1968.

Mrs. Noordhof was charged in connection with a two-car crash on Blue Star Highway 2 1/2 miles south of Holland which claimed the lives of Daniel Clark, 66, of 213 West 10th St., Holland, and two sons, Michael, 12, and John, 14.

Her \$6,000 bond was continued for sentence Oct. 20 by Judge Chester A. Ray.

Collide at Intersection

A car driven by Earl Jay Dalman, 16, of 278 East 13th St., and a truck driven by Reuben Noel Calvert, 28, of 330 Howard Ave., collided at the intersection of 16th St. and Cleveland Ave. at 5:30 p.m. Wednesday, according to Holland police who cited Dalman for failure to yield the right of way.

West Ottawa Eyes New \$4.2 Million Program

The West Ottawa Board of Education Monday night approved an application for preliminary qualification of bonds for a proposed \$4.2 million building program; the result of 1 1/2 years of study by a citizens advisory committee headed by Ray Lamb.

The program calls for a new 1,300-pupil school for sixth, seventh and eighth graders, site not selected; a four-classroom addition to Glerum School, and a remodeling and renovating Beechwood School to meet current health and safety standards. The program also calls for minor modifications at Pine Creek School and at the Junior-Senior High School.

The board hopes the bond election can be held before January.

Contracts were approved for the following new teachers: Helen Cresbassa, Ventura trainable program; Mary Bloemers and Catherine Fales, elemen-

tary, and Linda Pynnnonen, remedial reading.

The board authorized the purchase of two additional bleacher units for the athletic field, financed through an outside source, and will study the feasibility of improved raised bleachers. A \$50 donation for additional bleachers also was acknowledged.

Unofficial enrollment in West Ottawa schools totals 4,111, an increase of 125 over last year's figure of 3,986. The growth is mostly in the elementary grades.

Enrollment by schools follows: Beechwood, 314; Glerum, 226; Lakewood, 342; Waukazoo, 228; Pine Creek, 380; North Holland, 166; Woodside, 395; Sheldon Woods, 199; elementary total, 2,250; junior high, 980; senior high, 881 (secondary total, 1,861).

Douglas Doctor Hurt When Light Plane Crashes

LAKE CITY — A Saugatuck-Douglas physician was injured Saturday when his single-engine private plane crashed in the woods near Home Acres Airport here.

Dr. Kenneth C. Miller, 53, of Lake Shore Rd., Douglas, received back injuries and facial cuts and is reported in satisfactory condition Monday at Munson Medical Center in Traverse City.

Dr. and Mrs. Miller were at Boyne Mountain to attend the 25th anniversary reunion of his class from Wayne Medical School when he took the side flight to view some land. He was alone at the time of the crash.

Dr. Miller was reportedly about two miles from the airport and beginning to circle prior to landing when the engine failed. Mrs. Miller said rather than make the landing and crashing into an area where trailers were parked, Dr. Miller landed in the nearby woods.

Mrs. Miller who had stayed back to take a nap said there was no fire on the craft. The wings of the craft were demolished and there was some damage reported to the fuselage.

The couple had left Tulip City Airport in Holland on Friday night.

City Seeks Juvenile Study Grant

City Council Wednesday night approved plans to apply to the U. S. Department of Health, Education and Welfare for a grant to institute a program in Holland area on juvenile delinquency prevention.

The program was explained by Dr. Earl Hall, currently with Human Sciences Research, Inc., McLean, Va. Dr. Hall conducted the original Holland Juvenile Survey in 1965 while serving as head of the department of sociology at Hope College.

The application will be made to the Social and Rehabilitation Service Office of Juvenile Delinquency and Youth Development under HEW.

The 15-page draft will be amended before it is submitted Oct. 10 and Dr. Hall will work with the Holland Social Service Council which encompasses all social agencies in the area.

The proposed program would be concerned with detecting children who are severely aggressive or severely withdrawn with an aim of correcting such traits before they become juvenile or adult problems to society. Dr. Hall estimated Holland had 20 such cases in the five-six year age group in 1965 and he felt there might be 30 such problem children in that age group today.

The program would be a three-year study with the first grant for one year only. If the first grant is approved and the program implemented, application for further funds would be made the following two years.

Police Chief Leslie Van Beveren and City Manager Herb Holt discussed the plan with officials in Washington last spring.

The program in Holland is aimed toward developing a diagnosis and treatment handbook to serve young, less experienced workers in working with problem juveniles. It is expected such a handbook would have periodic revisions and in time would become valuable resource material.

It is expected that the program of the Holland Department of Juvenile Affairs will become a permanent department in the city.

The program will draw on such agencies of the community as child guidance, family counseling, employment agencies, visiting teachers, juvenile offices, life enrichment services (Higher Horizons) and social agencies.

DOESN'T MAKE SENSE

Politics may make strange bedfellows, but it also makes some very strange principles by which it operates.

On the one hand, the government spends some \$5 million a year to tell people that smoking is dangerous to health, and then it hands out some \$50 million a year in the way of subsidies to farmers to keep the whole affair on the road.

And we spend a good sum advertising abroad that certain foreign cigarettes contain tobacco raised in the United States.

Why do we do this? Because we collect over \$4 billion dollars in taxes on tobacco products, we export millions of dollars worth of tobacco, and this helps our balance of payment problem, and there are a number of voters in key states that must be kept in good humor.

What happens to the principles involved, the fact that we are subsidizing a product that causes death? What happens to the harsh statistic of some 300,000 deaths annually? In the political way of life it isn't too hard to look the other way or to act as if there is no difficulty involved.

Maybe right here we are dealing with a matter which is at the root of a lot of our other problems. We act pragmatically and not according to basic notions of right and wrong. We have an easy ethical point of view which doesn't interfere with the ongoing politics of helping those still alive and who do have a vote. Let's be honest. Although fifty per cent of our casualties on the road is caused by drunken driving, we spend little time on the problem, and seem almost uninterested in the weekly slaughter. We prefer the business, the taxes, the ease of not having to face tough problems.

Getting at a nation's problems may not be as hard as we think. It is just a matter of getting down to principles. And they can be so demanding. If they are, forget them. And that is just what is being done.

Sunday School Lesson

Sunday, Sept. 21
A Nation Worships God
II Samuel 7:18-19, 27-29;
I Kings 8:62-63, 65-66
By C. P. Dame

"A Nation Worships" — but what or whom? It makes a great difference whether a nation worships wealth or God. The nation that worships God is in a blessed situation.

I. Good intentions please God. David finally got to become the king of a united nation. He had built a palace for himself in Jerusalem. One day he thought of the ark which was pitched in a tent. And he was living in a palace. This did not seem right to him. He talked to Nathan, the court preacher, about this who agreed and told him to go ahead with his plan to build a temple.

During the night God spoke to Nathan and told him to tell David that although his intention was praiseworthy he would not have the honor of building a temple but his son would have it. I Chronicles 22:8 gives the reason. I Chronicles 22 tells that David gathered much material for the temple. He did have a share in the project. God praised David for his intention. "Thou didst well that it was in thine heart," God knows what is in our hearts.

David did not think it right that he should live in a palace while the ark was in a tent. Is it right for church members to live luxuriously and worship in a church building that is inadequate for effective service? Is it right for church members to spend big sums for pleasure and recreation and let the budgets for missions and evangelism be cut?

II. God has greater plans. David was disappointed but he did not pout but he praised God for His promise that his family would rule for a long time. For more than five hundred years the descendants of David ruled over Judah. God withheld and gave. From David's family the Messiah came. His rule is from everlasting to everlasting. Jesus is David's greater Son. The promise God made to David we understand better than David because we have seen its fulfillment, at least in part.

III. A worshipping nation rejoices. Solomon built the temple which stood about four hundred years. It was about 90 feet long, a little more than 30 feet wide and about 45 feet high—a small building in comparison to modern skyscrapers. After seven years of work and after all the furnishings were put in their proper places and the ark of the covenant was put in it, the building was dedicated. Solomon gave a dedicatory address (8:15-21) and then a dedicatory prayer (8:22-61). After the dedicatory festivals the nation celebrated the Feast of Tabernacles, one of the three feasts the nation celebrated.

Peopl from all parts of Israel came, some even from Hamath on the north and Egypt on the south. On the eighth day the king sent the people home "joyful and glad of heart for all the goodness that the Lord had shown to David and to Israel His people." Blessings come to a nation when it worships and serves God, the Father of Jesus Christ.

5,000 Fans See Excellent Contest

It was billed the game of the year and it was just that Friday night as Holland High defeated West Ottawa, 26-14 in the season's football opener for both teams at Riverview Park before an estimated 5,000 fans.

Holland pretty much dominated the first half as they led 20-0 but the statistics sheet showed some interesting factors as it had West Ottawa run three more plays from scrimmage 27 to 24. The Panthers had the ball for only five series of plays in the first half to six for the Dutch.

Both teams moved the ball real well throughout the game with Holland especially tough in the first half when they piled up 178 yards rushing to only 60 for the Panthers.

Senior halfback, Ken De Boer was the star runner for the Dutch as he lugged the pigskin 11 times for 142 yards for an average of 12.9 per carry.

Greg Van Wieren had an exceptionally fine night also for West Ottawa as he carried the ball 12 times for 132 yards for a 11 per average carry.

According to Joe Moran, Recreation director, 5,000 people watched the first West Ottawa-Holland football game in history. "It was the biggest crowd in 10 years to watch a Holland football game," Moran said.

The large crowd witnessed a good football game as both teams wanted to win that first encounter between the two teams. But Holland's poise and tradition proved too much for the Panthers to cope with, especially on defense where Ron Weatherbee, coach of the Panthers felt "his team let him down."

"I thought we played a pretty good opening game," was the comment made by Dave Kempker, coach of Holland, "but we are going to have to rapidly improve as the season progresses," he concluded.

Rick Geerling set up the first Holland touchdown in the opening quarter as he bulled his way nine yards to the West Ottawa eight yard line on a draw play coming on second down and nine yards to go for a first down.

On the next play, De Boer twisted and spun his way into the end zone to send Holland fans into hysterics with a 6-0 lead. Tom Van Dokkumburg kicked the conversion and the Dutch led, 7-0.

Holland drew blood again in the second period as Max Glupker set up the touchdown by tossing a screen pass to De Boer who raced 22 yards to the Panthers 21 yard line.

Glupker took the handoff from center, Ray Munson and raced around left end to go in for the second touchdown of the night from 21 yards out. Van Dokkumburg once again kicked the conversion.

Van Wieren was once again

the workhorse for the Panthers as he jaunted 40 yards to the Holland 30 yard line to only see the drive stall on downs.

De Boer finished off the scoring for Holland in the first half as he took a handoff from Glupker and went off left tackle, first by breaking not one but four tackles on his way to a beautiful 86 yard touchdown run with 3:33 left in the first half.

West Ottawa was not only fighting the tough defense of the Dutch but they were also fighting the clock as Les Zomermaand, quarterback of the Panthers was doing a fine job of finding his receivers open as he hit on three straight passes to bring the ball in Dutch territory before time ran out in the first half with Holland leading, 20-0.

West Ottawa took the second half kickoff and raced downhill with determination to score and were quite successful from the air as Zomermaand was finding his targets to move his team in for the score.

The Panthers finally scored on a 24 yard pass from Zomermaand to Mark Tucker to cut the deficit to 20-6 as the attempted run for the two-point conversion fell short.

Holland wasn't about to be denied on the next series as they marched right down to score on a quarterback sneak by Glupker from the one yard line. The play was triggered by a 33-yard pass from Glupker to Larry Lamb.

West Ottawa gave it all they had as they took the ensuing kickoff and headed into Dutch territory on the strength of the strong passing arm of Zomermaand and the running of Van Wieren who galloped 67 yards down the middle of the field before being caught from behind by De Boer on the Holland 25.

A broken play set up the last score of the night as Zomermaand raced to his right side from 25 yards out only to fumble on the five but was fortunate enough to cover his own mistake which led to the touchdown.

After Tom Kruihof who was a demon on defense for the Panthers bulled his way to the two yard line the Panthers were thrown back to the six and were faced with a fourth down.

Zomermaand found the Panthers captain, Kruihof, alone in the end zone with a pass for the final touchdown of the night for either team.

Even though Holland dominated much of the contest, West Ottawa never gave up and made the Dutch earn their victory.

West Ottawa will entertain Kentwood next Friday while Holland will be hosting Niles.

Allendale Loses First Game, 24-0

GRAND RAPIDS — Allendale High lost its first football game in history here Saturday to a strong Kentwood freshmen team, 24-0.

Coach Bill Friberg's Allendale men took the opening kickoff and marched down to score an apparent touchdown on an end sweep from six yards out only to see a clipping penalty set them back. This sort of broke the hearts of Allendale which has never played football before.

Allendale scored another apparent touchdown in the second quarter, this time from 40 yards out but again the run was nullified by a clipping penalty.

"We played two-thirds of our personnel and I was rather pleased with the boys' first game," said Friberg. He continued, "Steve Cook did a whale of a job at defensive linebacker for us and Bernie Rotman looked good at halfback."

Friberg also said, "we only have three buses in our high school system and we took two of them to the game which shows our school spirit. (Allendale has only ninth and tenth graders in their high school system this year.)

Allendale will be traveling to Caledonia Thursday in their next encounter scheduled to start at 4:15 p.m.

Educational TV Forecast For Holland

The possibility of an educational television channel available to the Holland area appears to be growing, according to a Grand Rapids broadcasting authority who spoke to Holland Rotary Club Thursday noon.

William Dempsey, president and general manager of WZZM-TV, said a group of Western Michigan citizens is working on a project to establish channel 35 in the UHF band as an ETV station.

The group, known as Wolverine Educational Telecasters, proposes to broadcast instructional programs for use in schools as well as concerts, opera, panel discussions, and other fare of cultural and social significance for the adult public.

The proposed channel will serve Grand Rapids, Holland and Muskegon, according to Dempsey. He indicated it might be supported by a statewide ETV network as contemplated by the Michigan State Board of Education, but added he believed in local control of such programming.

Dempsey said the budget of such a station could vary between \$100,000, or slightly less, to \$500,000 per year. Initial capital would be supplied by stockholders who contribute \$5 or \$10 to the non-profit broadcasting corporation. Government funds are available to help with the cost of facilities, he added, but operating costs must be borne by public support.

Dempsey said his station has offered the use of its new tower and transmitter building to Wolverine Educational Telecasters for installing the antenna and transmitter of channel 35.

Dempsey was introduced by Fred Bertsch. William Jesiek was program chairman.

Cottage Breakin Reported to Deputies

A cottage located at 355 Lakeshore Dr. and owned by Edward Geelhoed of Wyoming was broken into sometime between Sunday and Thursday, according to Ottawa county sheriff's deputies who are investigating.

A neighbor discovered the breakin Thursday when he noticed the screen on the south side of the house was setting against a tree and found the back door open.

Deputies said entry was apparently gained by breaking a window pane on the rear door and reaching in to unlock it. Entry was also attempted on another window, officers reported. A fishing rod and reel valued in excess of \$50 appeared to be the only items missing.

Teletype Inventor Visiting Holland

Edward Ernst Kleinschmidt, 94-year-old inventor of the teletype and holder of 118 U. S. patents in related fields, is spending a few days in Holland—his first visit to this area.

He and his wife are guests of Mr. and Mrs. Mischa Thorgevsky who held a party for 44 guests Friday at the Thorgevsky Green Cottage near Weuka-zoo.

Although his hearing is a bit impaired, Kleinschmidt is extremely active and points out that his brother Fred lived to be 102 years old.

RECEIVES AWARD—Trooper Joe T. Roberts of Grand Haven was cited for meritorious service for his work in capturing a disturbed man in January. The Michigan State Police board of awards authorized the citations and Col. Frederick E. Davis, department director, made the announcements.

TO LOWRY AFB—Airman Donald P. Peel, son of Mr. and Mrs. Robert C. Peel of 589 Hoffman St., Saugatuck, has completed basic training at Lackland AFB, and has been assigned to Lowry AFB, Colo., for munitions and weapons maintenance training. Airman Peel, a 1966 graduate of Saugatuck High School, attended Grand Valley State College in Alendale.

IN KOREA—Pvt. Harold Kuipers, son of Mr. and Mrs. Ivan Kuipers of 467 West Main St., Zeeland, was home on a 28 day leave and left in August for Ft. Lewis Wash., from where he left for Korea. He took his basic training at Ft. Sill, Okla., and AIT at Ft. Sill, Okla. His address is: Pvt. Harold J. Kuipers, 371-50-3563, A. Battery, 1st Bn. 42 ATRY, 4th USAMC, APO San Francisco, Calif., 96208.

It was back around 1928 that Kleinschmidt, a native of Bremen, Germany, who came to this country when he was nine years old, obtained the patent for the teletype and high speed teletypewriter now standard for U.S. Services.

While flying to Grand Rapids Thursday from the east, he sat next to an Army Sergeant who had recently returned from Turkey. Exchanging pleasantries, he learned that the sergeant had been in charge of servicing equipment for the International Teletype System. The sergeant who is being transferred to Michigan was happy to meet the inventor.

Kleinschmidt's latest invention is the teleprinter, a communications device used in police cars, ambulances, etc., which operates with no static interference. It was recently approved by the Federal Communications Commission and is so small (and uncomplicated) that it can be used almost anywhere in a vehicle, but is usually attached to the dashboard.

Kleinschmidt started out in an electric shop in New York City in 1898 and became president of the Kleinschmidt Electric Co. there in 1913. In 1925 he became vice president of Morkum-Kleinschmidt Co. in Chicago and Morkum - Kleinschmidt was awarded the patent for a printing telegraph apparatus which later became known as the teletype and high speed teletypewriter. Early machines produced 60 words a minute and later 100 words a minute—the standard speed for a good share of teletypes for newspapers. Kleinschmidt said some equipment can transmit 400 words a minute.

Research and production in teletypes and related communications are done in Kleinschmidt Laboratories, Inc., in Deerfield, Ill., not far from Chicago.

Of Kleinschmidt's four children, only one daughter is living and her family is in Cazenovia, N.Y. There are eight grandchildren and five great grandchildren.

The Kleinschmidts spend their summers in Salisbury, Conn., and their winters at Bell Harbor, Fla. Their Florida home is not far from the Thorgevsky winter home at Bell Harbor.

Train Faster Than Flagging Driver

ZEELAND—Police here reported a young driver from Hudsonville escaped injury but the car he was driving was wrecked by a train he was unable to flag down at 10 p.m. Friday.

This put the car, laying on its frame on the railroad track, police said, and matters might not have been as bad if a train didn't pass.

The Holland Chapter of SPEBSQSA participated in a camp-out last weekend at Horsehead Lake. Delegates were present from Grand Rapids, Kalamazoo, Muskegon, Jackson, Owosso and Holland, the latter being represented by some 35 persons. Entire families were present.

Singing however did not cease following the planned program and late in the evening singing could be heard in various sections of the grounds, many being impromptu quartets "just woodshedding." Concertina, banjo and guitar accompaniment provided some of the background music.

Ottawa County 4-H News

By Willis S. Boss
Extension 4-H Youth Agent

Adult leaders for the horse project, which is one of Michigan's increasingly popular 4-H projects, will meet for a training conference on Sept. 26 and 27 at Camp Kett, Michigan's 4-H Leader Training Center near Tustin in Osceola County. Purpose of the conference is to present information and ideas on program planning and teaching methods that will be useful to 4-H project leaders. Dr. Gordon Beckstrand, director of Michigan 4-H Youth programs, will be among those who will address the conference.

Throughout the winter of 1969-70 leaders will be notified of a campaign to raise funds to help pay for Michigan's share of the expansion of the National 4-H Center in Washington, D.C. Although only a limited number of delegates go to the National Center each year, the program is an educational experience in citizenship. The campaign to raise the money for this will go on through the fall and winter.

Special tickets for 4-H members wishing to attend M.S.U. football games will be available this fall. There are two games for which tickets can be ordered. On Sept. 20 Michigan State plays Washington and on Sept. 27 Michigan State will play Southern Methodist. 4-H leaders can order tickets directly by writing to Bill Beardsley, Ticket Manager, Jenison Field House, Michigan State University, East Lansing, Mich. 48823. Tickets are sold on a ratio of one adult per five youths.

The Ottawa County 4-H Council met at the County Building on Tuesday evening. Discussion centered around the plat book, the completed summer program and on evaluation of 4-H for 1969. Time was also spent discussing the event planned for Sept. 20 and 21 when Ottawa, Kent and Allegan council members and their spouses will gather at Camp Kett. This program is designed to acquaint council members with their duties and responsibilities and to give them an insight as to what the councils in other counties are doing.

It is the hopes of the agent that during the next two or three weeks he will be able to call on the schools and teachers who led conservation projects in this year's program. We have materials available in our office in case any teachers wish to request them.

Winter 4-H clubs are also getting started. We have materials available in our office for these clubs also. Plans are to hold a series of open house type meetings the first part of Oct. These meetings will be held in each of the districts. The purpose of these meetings is to give materials and information to leaders and to help them in any way in getting their clubs organized.

Mistakes Prove Costly To Hope

DEFIANCE, Ohio—It was in 1924 that Hope College played Defiance College of Ohio in the first meeting between the two teams which resulted in a 40-6 win for Defiance.

Now 45 years later the two teams met Saturday with Defiance again winning, this time by a 40-7 score.

Defiance turned a pair of fumbles and two pass interceptions into touchdowns on their route to ruin Coach Russ De Vette's 15th season opener as Hope's head coach.

Hope wasted little time in taking a 7-0 lead. It turned out to be the last points they were to score as James Fitzgerald fumbled the first time Defiance touched the ball from scrimmage and Karl Nadolsky, a Grand Rapids junior linebacker, pounced on the ball on Defiance's 34 yard line.

Five plays later Hope quarterback Groy Kaper, a Hamilton junior, threw a three-yard scoring pass to Grand Rapids freshman Ted Albrecht. He had replaced Bill Bekkering who was injured in last week's scrimmage and did not make the trip. Mike Hinga kicked the conversion and the Flying Dutchmen led, 7-0.

Defiance really went to work in the second quarter. They tallied three touchdowns, two coming within a period of just 21 seconds.

The Yellow Jackets evened the game at 7-7 when quarterback Jerry Griffith scored on a one-yard sneak and Jim Van Horne kicked the first of four successful extra points.

With Hope moving the ball well both in the air and on the ground, the old fumbler hit them as Kaper, twice in two series, attempted to pitch back to one of his halfbacks only to lose the ball on both occasions. This turned out to be fatal for the Dutchmen as Defiance turned both fumbles into touchdowns.

Gary Evans, a fleet-footed runner for the Yellow Jackets, put Defiance ahead to stay as he tallied a touchdown on a nine-yard run at 6:33 and then 5:37 190 pounds of power tackle Tim Predeir picked up a fumble in mid-air and ran it in for a touchdown from 32 yards out.

The Yellow Jackets added another touchdown in the third period on a 13-yard Griffith to Evans pass while second string backs, Duane Laux and Paul Smith added scores in the final quarter. Laux tallied from the two yard line on a dive play while Smith scored on a power play off tackle from the five.

Defiance held the upper hand in rushing by mounting a total of 227 yards to only 63 for Hope while Hope showed its power through the air as Kaper and Jon Constant of Grand Haven completed 15 out of 34 attempts for 174 yards.

Kaper connected on 13 of the 24 passes Hope attempted with six of them going to Albrecht and five to Zeeland sophomore, Jim Lamer.

Hope did manage to run 15 series to 14 for the winners. This was quite pleasing to De Vette as the Dutchmen moved the ball throughout the game and if it wasn't for those mistakes, Hope would have been in the game scorewise.

"I thought we looked pretty good for our first game on offense," said De Vette. He continued, "Kaper did a good job for us in passing and I was pleased with the way Nadolsky handled himself at linebacker."

Hope will open its home schedule Saturday night at Riverview Park when they entertain Franklin College of Indiana at 7:30 p.m.

Survey Cites Critical Needs for Junior High

Critical need for improved junior high facilities for Holland highlighted the report of the University of Michigan survey of all phases in the Holland public school system, revealed at a public meeting in the Holland High School auditorium Monday night, sponsored by the Holland PTA Council. A total of 143 attended.

The survey covered curriculum, building and site needs as well as administration and supervision. It was conducted by a team of almost 30 U. of M. department heads and other personnel.

It was generally recognized that elementary buildings and the high school buildings are in good to excellent condition, but that junior high school facilities are woefully inadequate.

Among the recommendations was one advocating a 6-2-4 system. This would remove the ninth grade from junior high to the high school, calling for additional facilities.

Further dealing with junior high needs, the survey advances two plans, one to acquire sites in east and west portions of the city for two new junior high schools, and the other to build one new junior high to serve 900 students for grades 7-8.

Summing up the needs for improved facilities, Board President James O. Lamb called for a CCC program — cooperation, communication and construction. "We have a fine school system, a fine staff and a fine community, and if we work together we can accomplish what needs to be done," he said.

He also pointed to other needs and said district voters may face three millage elections during the current school year. The first is the transportation millage issue calling for 2 mills for 3 years at a special election Oct. 21. He expects another millage election for operations will be scheduled soon after the first of the year, and he said a third could involve junior high needs.

Sylvia Tubergen, president of the PTA Council, presided. On the panel were Gardner Wieringa, director of curriculum and personnel; Supt. Donald Ithman who discussed administration and supervision, and three board members, Kay MacKenzie, chairman of the curriculum committee; John Weber, chairman of the buildings and grounds committee, and President Lamb.

Since this was the first public exposure to the U. of M. study, no decisions were made, but it appeared that shifting ninth graders to the high school campus was a reasonable recommendation. There will be much careful study before decisions are made.

Under administration, the survey recommended discontinuing present standing committees of the Board of Education in favor of unit consideration and action on all items. Under
